Meteor Scatter: November 2009. Leonids Outburst expected!!!

Like in 2008, another Leonids Outburst is expected in 2009! The maximum is predicted to occur on November 17th, with an Outburst around 21-22 UT (ZHR up to 200 hr-1 or even more). Unfortunately, the Leonids radiant elevation will be very low over Europe during predicted time of maximum, thus leading to poor perceived meteor rates. But after radiant rise, meteor flux should still be remarkable, thus providing good rocks also for european MS enthusiasts. Read more about Leonids and other meteor showers in November 2009 at our MS-Page: http://www.mmmonvhf.de/ms.php
As well an review about the ORIONIDS 2009 are given there...

Space Weather News, Oct. 25, 2009

BIG SUNSPOT: The sun is showing signs of life. Sunspot 1029 emerged over the weekend, and it is crackling with B- and C-class solar flares. The active region's magnetic polarity identifies it as a member of new Solar Cycle 24. If its growth continues apace, sunspot 1029 could soon become the biggest sunspot of 2009.
Check http://spaceweather.com for animations and updates.
SUNSPOT UPDATE: Since it emerged last weekend, new-cycle sunspot 1029 has become the biggest and most active sunspot of 2009.
It is crackling with B- and C-class solar flares and putting on a good show for amateur astronomers. This one sunspot does not put an end to solar minimum, but it is a remarkable break from the calm. SOURCE: http://spaceweather.com

*** G0HGA VHF/UHF CW Activity 2010 ***

Angie, G0HGA FISTS # 41 became Silent Key earlier this year. In her memory there is a One year activity designed to promote CW activity on the VHF / UHF Frequencies. Angie was a staunch advocate of CW on these frequencies and it is felt the activity is a fitting tribute to her. Please do welcome the details from Rob, M0BPT at:
http://www.mmmonvhf.de/latest.php?id=2962
SOURCE: tnx to Rob, M0BPT via Maurice, F5NQL, direct to MMMonVHF

Still EME Activity from 5N0EME in Nigeria the next weeks ...
I promised to be more QRV and already showed up from time to time during the week. Unfortunately condx have not been that good and activity was rather low. Most QSOs were dupes but at least it showed me that I am still to hear. I herewith announce my probably last activity under 5N0EME. We are coming close to the end and step by step we need to prepare our return to Switzerland. Please take the chance and try to work me. I will have to pack up things and make everything ready for shipping, even so I might still stay until end of November. Here my operating dates:
Saturday 31.October: 1545z-2000z on 144.105(+/-) JT65B tx 1st
Sunday 01.November: 1800z-2000z on 1296.090 JT65C tx 1st
I will have the N0UK logger running while operating but cant promise that I can follow all the traffic as it requires quite some time. It will be the last 23cm EME activity from here. I will take the dish apart soon. I hope to still get some new stations in the log. On 23cm I would be happy to work some CW as well. You may contact me at the HB9Q logger if you like. vy 73

Big Dish PI9CAM activity ARRL 7/8 November
Dear All, More news from PI9CAM, 25m dish. We are on our way to get 13cm (RX all bands) ,9cm (RX all bands) and 6cm equipment mounted in our dish. Feeds are kindly loaned by ON7UN and ON4BCB. We set up for easy switching between all thoses bands by off-centre mounting of the feeds. Powerlevel will be such that our signals will be 15dB minimum on a 1.5m dish. so get you stuff running an look for us! We will not participate in the contest other then a fun station, since our dish is treated as a commercial one. Look for us you will hear us for sure. more info to come later, 73's Jan PA0PLY

The VHF-DX-Portal MMMonVHF - Newsletter Credits & Info
****

Our Newsletter is compiled from the input of the USER of the VHF-DX-Portal MMMonVHF as well by a lot of free usable HF-V-U-SHF-Info-Sources and chats like ON4KST-, RU-VHF-DX-Net, EA-V-U-SHF-Chat, N0UK-Chat and others...

* Many thanks to all USER who send us info and news *

Wherever we found the info we always indicate the source of the info.
If you get knowledge of an expedition, which is NOT listed at our
VHF-DX-Portal MMMonVHF or if you have additional info for an
expedition, PLEASE be so kind and send us this info at

 * www.mmmonvhf.de/newsuser.php or www.mmmonvhf.de/kontact.php *

The MMMonVHF-Team is always trying to spread any expedition info as
much up-to-date and reliable as possible and as long as the info does
not violate with our MMMonVHF-Policy.

Have a lot of fun and enjoy the VHF-DX-Portal MMMonVHF!
